Perum. Grand Anandara Residence Blok E8/23, Des. Buni Bakti, Kec. Babelan, Kab. Bekasi Utara, Jawa Barat
Vocational graduate (TKJ) with hands-on experience in network troubleshooting, hardware installation, and industrial electrical systems. Eager to grow in IT Support & Engineering.

Pengalaman Kerja

CV Tritech Engineering - Bekasi, Indonesia

Apr 2025 - Sekarang

IT Technician / Project Technician (Freelance/Project-Based)

An engineering service provider handling IT infrastructure, networking, and security system installation projects.

- Installed and maintained analog and IP CCTV camera systems for client sites
- Performed UTP and Fiber Optic cable installation and termination, including FTTH network setup
- Installed and configured access control systems (access door locks), including device mounting, cabling, configuration, and testing
- Installed and configured fingerprint and face recognition attendance systems
- Installed and troubleshot LAN, Wi-Fi, router, switch, and access point setups
- Conducted on-site troubleshooting of IT and network equipment across various project locations
- Performed preventive maintenance and repair of IT and networking devices
- Installed PABX (telephone exchange) systems
- Conducted post-installation testing to ensure full functionality of all deployed equipment
- Documented completed work and coordinated with team members and clients

PT. Prima Karya Sarana Sejahtera (Signify Commercial Indonesia / Philips Lighting) - Bekasi, Indonesia

Sep 2024 - Apr 2025

Assembly Operator

A manufacturing company under Signify (Philips Lighting), specializing in commercial lighting production.

- Operated and calibrated Safety Test machines in compliance with company technical standards
- Verified Grounding, Insulation Resistance (IR), and Power parameters to ensure product quality compliance
- Applied knowledge of 3-phase electrical systems (R, S, T) and grounding principles during product testing

PT. Pijar Pratama Indonesia (Global Dent Group) - Bekasi, Indonesia

Sep 2021 - Sep 2024

Warehouse Administration Staff

A dental equipment distribution company under Global Dent Group.

- Managed inventory ordering and coordinated stock replenishment with the central distribution center
- Validated incoming goods through physical inspection and digital recording using Accurate Online
- Monitored stock levels and expiration dates regularly to maintain inventory quality
- Collaborated with the marketing team to prevent overstock and dead stock issues

PT. KMS Telecom - Indonesia

Apr 2019 - Apr 2020

BTS & Microwave Tower Installer

A telecommunications infrastructure company specializing in BTS (Base Transceiver Station) and Microwave tower installation.

- Installed BTS (Base Transceiver Station) and Microwave (MW) equipment on telecommunication towers
- Mounted antennas, feeders, radio units, brackets, and supporting equipment according to technical standards
- Performed cable pulling and termination, ensuring proper connections per configuration specs
- Executed antenna alignment and pointing for Microwave links to achieve optimal signal quality
- Installed power supply, grounding, and protection systems for telecommunication equipment
- Conducted testing and troubleshooting of BTS and Microwave equipment post-installation
- Performed tower climbing and high-altitude equipment installation while following strict safety procedures
- Verified installation results against drawings, checklists, and technical project standards
- Coordinated with engineers and technicians during installation, commissioning, and troubleshooting
- Prepared work documentation and project progress reports

Jenjang Pendidikan

SMKIT Nurul Qolbi - Bekasi, Indonesia

Jul 2016 - Jul 2019

SMK/Vocational High School Computer and Network Engineering (Teknik Komputer dan Jaringan)

- BBPVP Bekasi — V-SAT Installation Certification
- Huawei Tech L0 — BTS Installation Certification
- SIO Crane Operator (RTGC) Class 1

Pengalaman organisasi

Toolman Organization — IT & Computer Network Division - Bekasi, Indonesia

Jul 2016 - Jul 2019

Member

- Assembled, installed, and configured computers to support school operations and computer-based examinations
- Set up and configured computer networks for Ulangan Kenaikan Kelas (UKK), Mid-Semester Assessments (PTS), and other computer-based exams
- Configured exam applications using XAMPP on client computers to ensure proper connection to the server
- Troubleshoot computers, networks, and exam applications before and during examinations to minimize technical issues
- Practiced Linux server installation and configuration, particularly Debian and Ubuntu
- Studied and practiced network routing using Cisco Packet Tracer
- Performed network connectivity testing and applied fundamentals of IP addressing, routing, and client-server configuration
- Coordinated with team members in preparing, executing, and troubleshooting computer systems during exam periods

Keterampilan, Prestasi & pengalaman lain

- **Huawei Tech L0 — BTS Installation Certification** (2019): Certified in BTS (Base Transceiver Station) installation fundamentals by Huawei Technologies.
- **Skill Academy — Designing Data-Driven Products** (2020): Completed training on designing user-centered products based on data analysis.
- **International Design School — Building a Website in 3 Hours** (2021): Completed a rapid web design course covering basic website building techniques.
- **Technical Skills:** Networking: LAN, Wi-Fi, router/switch configuration, UTP & Fiber Optic (FTTH) installation. Security systems: CCTV (analog & IP), access control, fingerprint/face recognition attendance systems. Telecom infrastructure: BTS & Microwave installation, antenna alignment, PABX systems. Server basics: Linux (Debian, Ubuntu), Cisco Packet Tracer routing. Software: Microsoft Office (Word, Excel, PowerPoint), Accurate Online.
